

SADDLE CUTTER 2

foodmate

Poultry Processing Systems

The Foodmate double blade Saddle Cutter with 2 motors can be used to do a single split of the leg quarters. It can also be adjusted in many ways to cut a strip of up to 5 cm out of the back bone.

The chicken which is hanging on the Foodmate Cut-Up line is mounted parallel to the moving direction of the machine, with the breast direction of the circular knife of the saddle cutter.

Because of the movement of the Cut-Up line and the help of the rails, the right cut is realized.

The height of the blades can be adjusted by adjusting the spindles, so they can be adjusted according to the size of the bird. It can also be installed on a existing Cut-Up lines.

SADDLE CUTTER 2

Key Benefit:

- Allows for a maximum of 6,000 birds per hour

Foodmate is an equipment manufacturing company based in the Netherlands. Founded in 2006, we focus primarily on poultry processing, and we recently launched Foodmate US, expanding our worldwide distribution into North America. Driven by research, paired with unmatched knowledge and decades of experience, it's our mission to innovate, automate and bring cost-effective solutions to the industry.

Our product line spans a wide assortment of processing equipment designed for live bird handling, killing and de-feathering, eviscerating, chilling, weighing, cut-up systems, deboning, and more. In addition to manufacturing, we provide an extensive variety of spare parts and service for other processing equipment and reconditioned machines.

Our team represents decades of industry knowledge and experience resulting in the engineering, development and implementation of new designs for our clients and their ever-changing needs.

Technical Specifications:

- Stainless steel frame and motor
- Motor (IP66) power is 1,1 kW, 50/60 Hz
- Machine dimensions
 - Length: 687 mm
 - Width: 961 mm
 - Height: 1111 mm
 - Weight: approx. 135 kg
