

FOOD SERVICE HALVING MACHINE

foodmate

Poultry Processing Systems

The Foodmate Food Service Halving Machine was designed specifically for the Food Service System, it can be used on both the 8-Piece and the 9-Piece Food Service System.

This halving machine has dual blades, offering a precise horizontal cut, delivering the desired cut-out. It removes the breast bone from a half bird. The lengthwise half cut chicken will feed into this module - breast side first - and will be guided on the side of the hips into the module.

- Easy to clean
- Suitable for all cut-up systems
- Requires minimal maintenance
- Can be part of an existing cut-up line
- Contains a stainless steel frame and motor
- Allows for a maximum of 6,000 birds per hour

Our mission is to innovate, automate and bring cost-effective solutions to the industry.

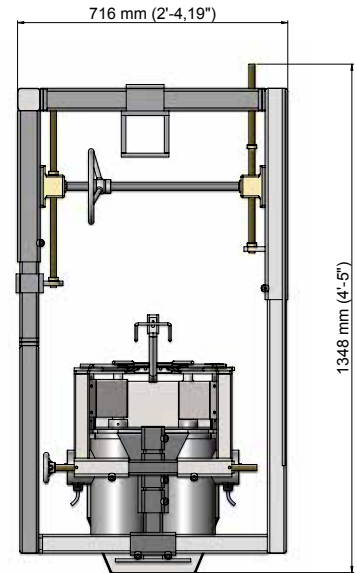

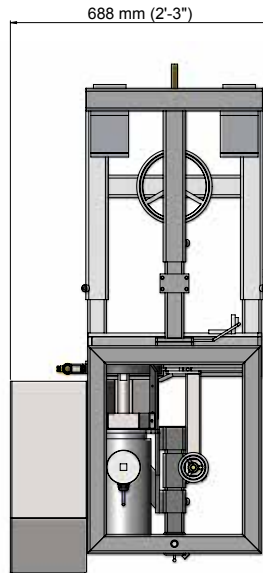

FOOD SERVICE HALVING MACHINE

Key Benefits:

- Allows for a maximum of 6,000 birds per hour
- Can be part of an existing cut-up line
- Requires minimal maintenance

Technical Specifications:

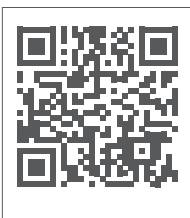

- Stainless steel frame and motor
- Motor (IP66) power is 2 x 0,75 kW
- Machine dimensions:
 - Length: 716 mm / 2'-3"
 - Width: 688 mm / 2'-4"
 - Height: 1350 mm / 4'-5"
 - Weight: approx. 170 kg / 375 lbs

Foodmate is a leading poultry processing equipment manufacturer based in the Netherlands. Founded by industry experts in early 2006, the company quickly expanded its worldwide distribution into North and South America with the launch of Foodmate US in 2010. Foodmate has since become the committed and reliable partner of major poultry processing companies worldwide.

Our team of dedicated professionals is backed by decades of poultry industry knowledge and experience resulting in the engineering, development and implementation of highly innovative designs geared to our clients' ever-changing needs. While cut-up and deboning systems remain the company's main focus, Foodmate's product line spans a wide range of processing equipment designed for live bird handling, killing and de-feathering, eviscerating, chilling, weighing and grading systems, and more. In addition to equipment manufacturing, Foodmate provides an extensive variety of spare parts and equipment service. Further supporting the industry, the company also delivers equipment that can be used in industrial washers including crate washers, pallet washers and container/drum washers.

Driven by research, paired with unmatched knowledge and decades of experience, Foodmate's mission is to innovate, automate and bring cost-effective solutions to the industry.
