

## THIGH & DRUMSTICK CUTTER

**foodmate**

Poultry Processing Systems

The Foodmate Thigh & Drumstick Cutter is a multi-purpose machine that can be used for both retail and food service applications. It has a simple construction design that contains no rebuild points, thus reducing the cost of ownership. It

provides an anatomic cut and depending on the type of cut, various configurations are possible. The electrical sync allows for more accurate cutting and the absence of a 90 degree gear box lowers maintenance costs.

Our mission is to innovate, automate and bring cost-effective solutions to the industry.
